Hungary

I am a Computer Science graduate with a primary focus on Java backend development. Through my own projects and algorithm development work, I have gained practical experience in applying various technologies. Starting in September, I will continue my studies at MSc level, which I plan to pursue in a dual training program.

EDUCATION

BSc in Computer Science

University of Szeged

09/2023 - 06/2025

BSc in Engineering Information Technology (not completed)

University of Szeged

09/2019 - 06/2022

Mechatronics technician

Kecskemét Kandó Kálmán Technical School

09/2014 - 06/2019

WORK EXPERIENCE

Algorithm Developer

University of Szeged – Department of Image Processing and Computer Graphics

01/2025 - 06/2025

Responsibilities

- Developed algorithms for research publications.

PERSONAL PROJECTS

Taskmanager

- Java • Spring Boot • Spring Security • Spring Data JPA • MySQL • JWT • JUnit • Mockito

Galaxy Bowling Center web Application

- Angular • SCSS • TypeScript

Galaxy Bowling Center Android Application

- Android • Java

Heroes of Might & Magic – Game Implementation

- Java • JavaFX • OOP

Urban Public Transportation System

- JavaFX • MySQL • JDBC

All of my projects can be found on my portfolio website.

SKILLS

Java

JavaScript

JUnit

SQL

Git

Docker

Linux

OOP

Clean Code

Design Patterns

Fast learning ability

Problem-solving mindset

COURSERA COURSES

Java Microservices with Spring Boot

Advanced Java Concepts

Java Programming Essentials

Programming with JavaScript

All completed courses are available on my portfolio website.

LANGUAGES

English

strong passive, basic active proficiency

INTERESTS

Chess

Hiking

Board games

Strategy/Logic games
